

Información del Plan Docente

Academic Year	2017/18
Faculty / School	127 - Facultad de Ciencias de la Salud
Degree	275 - Degree in Physiotherapy
ECTS	6.0
Year	2
Semester	First Four-month period
Subject Type	Compulsory
Module	---

1.General information**1.1.Introduction****1.2.Recommendations to take this course****1.3.Context and importance of this course in the degree****1.4.Activities and key dates****2.Learning goals****2.1.Learning goals****2.2.Importance of learning goals****3.Aims of the course and competences****3.1.Aims of the course****3.2.Competences****4.Assessment (1st and 2nd call)****4.1.Assessment tasks (description of tasks, marking system and assessment criteria)****5.Methodology, learning tasks, syllabus and resources****5.1.Methodological overview**

The course is designed in two parts, one mainly narrative, and another for development of technique and analysis skills. For the first part the tool proposed is the master class and for the second most participatory tools such as seminars and practices.

5.2.Learning tasks

25612 - General intervention procedures in physiotherapy

I

1- Theoretical classes in big group (12.5 hours) (learning outcomes 1, 2, 3 and 6)

Presentation of the contents of the subject with the support of various audiovisual media and guidance for the practical and personal study.

2- Laboratory practical classes (32 hours) (learning outcomes 2, 4, 5, 6)

Practical demonstration of the general procedures of intervention with the support of audiovisual media and practices specific material. Students will be monitored and corrected along their repetition of practice techniques with special attention to the student's ability to position the patient, to maintain proper ergonomics, to adjust the application parameters of procedures and manual dexterity.

3- Seminars (12.5 hours) (learning outcomes 1, 3, 5 and 6).

Problem solving and case clinic studies, individually and as a team, applying the theoretical and practical contents of the subject and various documentary sources.

Problem solving and practical cases in class, individually and as a team, with the Protocols of Intervention General Procedures in Physiotherapy I.

4- Special practices. (3 hours) (learning outcomes 1, 2, 3, 4, 5, 6).

External practices of the Intervention General Procedures in Physiotherapy I, applying the theoretical and practical content.

5- Personal study, preparation of lab notebook, the take-home and bibliographic recession (77.5 hours) (learning outcomes 1, 2, 3, 4, 5, 6).

5.3.Syllabus

TOPIC 1: FUNDAMENTALS AND INTERVENTION PROCEDURES OF MASSAGE THERAPY

- Theoretical basis of massage therapy.

25612 - General intervention procedures in physiotherapy

I

- Indications and evaluation.
- Methodology of application of massage therapy.
- Intervention Protocols of massage therapy.

TOPIC 2: FUNDAMENTALS AND INTERVENTION PROCEDURES OF HIDROTHERAPY

- Theoretical basis of hydrotherapy.
- Indications and evaluation.
- Methodology of application of hydrotherapy.
- Intervention Protocols of hydrotherapy.

TOPIC 3: FUNDAMENTALS AND INTERVENTION PROCEDURES OF BALNEOTHERAPY

- Theoretical basis of balneotherapy.
- Indications and evaluation.
- Methodology of application of balneotherapy.
- Intervention Protocols of balneotherapy.

TOPIC 4: FUNDAMENTALS AND INTERVENTION PROCEDURES OF THALASSOTHERAPY

- Theoretical basis of thalassotherapy.
- Indications and evaluation.
- Methodology of application of thalassotherapy.
- Intervention Protocols of thalassotherapy.

TOPIC 5: FUNDAMENTALS AND INTERVENTION PROCEDURES OF CLIMATOTHERAPY

- Theoretical basis of climatotherapy.
- Indications and evaluation.

25612 - General intervention procedures in physiotherapy

I

- Methodology of application of climatotherapy.

- Intervention Protocols of climatotherapy.

TOPIC 6: FUNDAMENTALS AND INTERVENTION PROCEDURES OF THERMOTHERAPY

- Theoretical basis of thermotherapy.

- Indications and evaluation.

- Methodology of application of thermotherapy.

- Intervention Protocols of thermotherapy.

TOPIC 7: FUNDAMENTALS AND INTERVENTION PROCEDURES OF CRYOTHERAPY

- Theoretical basis of cryotherapy.

- Indications and evaluation.

- Methodology of application of cryotherapy.

- Intervention Protocols of cryotherapy.

PRACTICES

PRACTICAL SECTION 1: INTERVENTION PROCEDURES OF MASSAGE THERAPY

- Principles of evaluation for the implementation of massage techniques.

- Basic techniques.

- Advanced Techniques: functional massage, Diacutaneous Fibrolysis, dry needling.

- Intervention Protocols of massage therapy.

PRACTICAL SECTION 2: INTERVENTION PROCEDURES OF HIDROTHERAPY

25612 - General intervention procedures in physiotherapy

I

- Principles of evaluation for the implementation of hydrotherapy techniques.
- Basic techniques.
- Advanced Techniques.
- Intervention Protocols of hydrotherapy.

PRACTICAL SECTION 3: INTERVENTION PROCEDURES OF BALNEOTHERAPY, THALASSOTHERAPY AND CLIMATOTHERAPY

- Principles of evaluation for the implementation of balneotherapy, thalassotherapy and climatotherapy techniques.
- Basic techniques.
- Advanced Techniques.
- Intervention Protocols of balneotherapy, thalassotherapy and climatotherapy.

PRACTICAL SECTION 4: INTERVENTION PROCEDURES OF THERMOTHERAPY

- Principles of evaluation for the implementation of thermotherapy techniques.
- Basic techniques.
- Advanced Techniques.
- Intervention Protocols of thermotherapy.

PRACTICAL SECTION 5: INTERVENTION PROCEDURES OF CRYOTHERAPY

- Principles of evaluation for the implementation of cryotherapy techniques.
- Basic techniques.
- Advanced Techniques.
- Intervention Protocols of cryotherapy.

5.4.Course planning and calendar

- Theoretical classes in a single group throughout the semester.

- Practical laboratory classes, 2 hour long, in reduced groups throughout the semester.

- Three external practices activities.

5.5.Bibliography and recommended resources
