<b>Degree</b>	272 - Degree in Journalism
<b>ECTS</b>	6.0
<b>Year</b>	2
<b>Semester</b>	First Four-month period
<b>Subject Type</b>	Compulsory
<b>Module</b>	---

### **1.General information**

#### **1.1.Aims of the course**

#### **1.2.Context and importance of this course in the degree**

#### **1.3.Recommendations to take this course**

### **2.Learning goals**

#### **2.1.Competences**

#### **2.2.Learning goals**

#### **2.3.Importance of learning goals**

### **3.Assessment (1st and 2nd call)**

#### **3.1.Assessment tasks (description of tasks, marking system and assessment criteria)**

### **4.Methodology, learning tasks, syllabus and resources**

#### **4.1.Methodological overview**

See "Learning activities " and "Syllabus". More information will be provided on the first day of class.

#### **4.2.Learning tasks**

The course includes the following learning tasks:

- Lectures.
- Practice sessions.
- Autonomous work and study.

## 25313 - Informative genres of the radio

- Assessment tasks.

### 4.3.Syllabus

The course will address the following topics:

- Topic 0. Introductory framework. The radio as a medium: general characteristics and functions of the medium. Professional activities and categories in the medium of radio.
- Topic 1. Radio language and treatment of information. Elements of radio language. The voice as a professional instrument: voice work practice. Specific qualities of radio treatment. Rules of writing "for the ear". Bad habits on the microphone: what is not allowed. The script and radio sound resources.
- Topic 2. Reference radio genres: news, reports and briefs. The news: concept and specific characteristics on the radio. Different types of news for different situations: from the facts to the story. The news report: elements. Different types of reports. Ways to organise a report. The radio brief: accuracy in information.
- Topic 3. News programmes. Categorisation of radio news programmes. The news flash: breaking news. The news update: an advance of headlines. The hourly news bulletin: information arrives regularly on the hour in a summarised style. The news bulletin: long news programme in each time slot.
- Topic 4. Dialogical genres: interviews, surveys, roundtables, debates, discussions, connections with correspondents and advice programmes. The interview: as a means to obtain information and as a news genre. Guidelines for the preparation of an interview; types and structure. Adaptation of a survey to the radio medium: beyond large samples. The roundtable: a genre for experts. The debate: one topic with two opposing positions. The discussion: several topics in the style of a conversation. The connection with correspondents: connection between the central studio and several links to cover a topic from different locations. The advice programme: the audience participates.
- Topic 5. Expressive and testimonial genres: features, criticisms, commentaries and editorials. The feature: interpretive information concerning the facts based on the reporter's senses. Structure, treatment and guidelines for the preparation of features. The criticism: guide to a product or cultural event. The commentary: in-depth analysis of the facts by a specialist. The editorial: the voice of the medium.
- Topic 6. The information in radio magazine programmes. The magazine as a radio news programme. Typology. Structures of a magazine programme. Sound treatment. Some guidelines for the preparation of a magazine programme.
- Topic 7. Specialised informative programmes. Single-topic programmes, specialising in one section. Economic and financial information programmes. Science and technology programmes. Cultural information programmes. Sporting information programmes. Programmes with other specialised contents.
- Topic 8. Information in radio programming as a whole. What radio programming is and what it consists of. The organisation of programming: analysis of "grids". Programming models. The dynamism of information in programming as a whole. Information and the service to the public.
