

## 28331 - Land Management: Factors and Scales (II)

### Syllabus Information

**Academic Year:** 2019/20

**Subject:** 28331 - Land Management: Factors and Scales (II)

**Faculty / School:** 103 - Facultad de Filosofía y Letras

**Degree:** 419 - Degree in Geography and Land Management

**ECTS:** 4.0

**Year:** 4

**Semester:** Second semester

**Subject Type:** Compulsory

**Module:** ---

### 1.General information

#### 1.1.Aims of the course

#### 1.2.Context and importance of this course in the degree

#### 1.3.Recommendations to take this course

### 2.Learning goals

#### 2.1.Competences

#### 2.2.Learning goals

#### 2.3.Importance of learning goals

### 3.Assessment (1st and 2nd call)

#### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

### 4.Methodology, learning tasks, syllabus and resources

#### 4.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as:

- **Lectures.** The teacher presents and discusses in the classroom the theoretical and methodological aspects of the course contents. Student participation is encouraged.
- **Practice sessions** supervised by the teacher. Its aim is that students are able to take decisions for solving problems related to land use, as well as familiarize them with key information sources and the proper treatment of the obtained information by applying the most common methods and techniques.
- **Seminars.** They promote, through discussion and exchange of ideas, reasoning and communication skills.
- **Field work.** It allows students to observe "in situ" and interpret some cases of territorial disorders and of ordered spaces.
- **Tutorials.** They facilitate the monitoring of the teaching-learning process and preparation of tasks and seminars, in group or individual tutorial sessions.

#### 4.2.Learning tasks

The course includes the following learning tasks:

- Lectures (15 hours).
- Practice sessions (10 hours). The methods and techniques commonly used in regional planning will be taught.
- Seminars (6 hours). In small groups they will take place in the last days of the semester.
- Field work (9 hours).
- Tutorials. The supervision of practical tasks, seminar-preparation and student guidance will be held in the teacher's office.

### 4.3.Syllabus

The course will address the following topics:

- Topic 1. Economic activities in regional planning.
- Topic 2. Natural Protected Areas in regional planning.
- Topic 3. Natural resources in regional planning.

### 4.4.Course planning and calendar

Further information concerning the timetable, classroom, office hours, assessment dates and other details regarding this course will be provided on the first day of class or please refer to the Facultad de Filosofía y Letras website ( <https://fyl.unizar.es/horario-de-clases#overlay-context=horario-de-clases>)
