### 1.General information

#### 1.1.Aims of the course

#### 1.2.Context and importance of this course in the degree

#### 1.3.Recommendations to take this course

### 2.Learning goals

#### 2.1.Competences

#### 2.2.Learning goals

#### 2.3.Importance of learning goals

### 3.Assessment (1st and 2nd call)

#### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

### 4.Methodology, learning tasks, syllabus and resources

#### 4.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. It is based on a participative and Problem-Based Learning methodology. Along with the lectures, the students will discuss critical issues, and learn how to express their opinions in public and defend their position in a respectful and constructive manner.

**Note:** In the case of changing the on-site format classes to online format classes because of health security reasons we will be able to do the following adaptations:

1. We will adapt the theoretical and practice classes to an online format (through Google Meet or another platform adopted by Unizar).
2. We will use Moodle as a main way to exchange material. We will add research articles, clinical cases, ppt presentations and links to contents of interest.
3. The tutorials will be conducted through email and/or Google Meet or another platform adopted by Unizar).

#### 4.2.Learning tasks

The course includes the following learning tasks:

1. Theoretical classes (15 h). 1,5 ECTS
