

Academic Year/course: 2021/22

25437 - Clinical Nursing II

Syllabus Information

Academic Year: 2021/22

Subject: 25437 - Clinical Nursing II

Faculty / School: 127 - Facultad de Ciencias de la Salud

275 - Escuela Universitaria de Enfermería de Huesca

375 - Escuela Universitaria de Enfermería de Teruel

Degree: 559 - Degree in Nursing

560 - Degree in Nursing

561 - Degree in Nursing

ECTS: 6.0

Year: 2

Semester: Annual

Subject Type: Compulsory

Module:

1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

3.1. Assessment tasks (description of tasks, marking system and assessment criteria)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. It favors the acquisition of knowledge related to human physiology and human health. A wide range of teaching and learning tasks are implemented, such as lectures and practice sessions.

MD1 Expository and participatory lectures.

MD4 Problem-based learning.

MD5 Exemplification and case study.

MD9 Tutorials.

4.2. Learning tasks

The subject Clinical Nursing II aims to develop comprehensive nursing processes in patients with pathological alterations of the ear and upper respiratory tract, visual apparatus and the integumentary system. To apply these nursing processes, the learning activities include:

-Lectures: The two large groups of the theory are taught by the teachers of the subject with the participation of students.

-Practical sessions with problems and resolution of cases: They are taught small groups, whose composition and structure are determined by the teaching organization of the 2nd year of the Nursing Degree of the Faculty of Health Sciences of Zaragoza. Assistance is compulsory.

Attendance and participation in the seminars is compulsory; After two absences, an evaluation of the contents of the seminars that has been missed must be passed. The evaluation of the seminars not carried out will be carried out through a test in which the student must present a summary report of the contents of the teaching sessions not developed, where the teachers of the subject will assess compliance with the learning outcomes. The qualification that can be obtained, is of suitable and not suitable, and this evaluation must be passed to be able to take the exam of the seminars.

-Tutorials and evaluation: In-person tutorial sessions or through the platforms of virtual teaching at the University of Zaragoza.

The subject is assigned a teaching load of 6 ECTS and is organized as follows:

Number of hours and attendance	Nº Hours	% Presence
AF1 Theoretical classes	30	20%
AF9 Problems and resolution of cases	25	16.66%
AF4 /AF8 Tutorials and evaluation	5	3.3%
AF6 Individual student work	90	0%

4.3. Syllabus

The course will address the following topics:

Thematic block I. Nursing assistance to patients with disorders of the ear and upper respiratory tract.

-Ear:

- Topic 1. Remembrance of the anatomy and physiology of the ear.
- Topic 2. Assessment of the patient with ear diseases.
- Topic 3. Diagnostic methods in diseases of the ear.
- Topic 4. Nursing techniques in the care of patients with ear diseases.
- Topic 5. Nursing processes in patients with ear disorders.

-Upper respiratory:

- Topic 6. Remembrance of the anatomy and physiology of the upper respiratory tract.
- Topic 7. Value of the patient with diseases of the upper respiratory tract.
- Topic 8. Diagnostic methods in diseases of the upper respiratory tract.
- Topic 9. Nursing procedures and techniques in the care of patients with diseases of the upper respiratory tract.
- Topic 10. Nursing process in patients with disorders of the upper respiratory tract.

Thematic block II. Nursing assistance to the patient with eye disorders.

- Topic 11. Remembrance of the anatomy and physiology of the visual apparatus.
- Topic 12. Assessment of the patient with diseases of the visual apparatus.
- Topic 13. Diagnostic methods in eye diseases.
- Topic 14. Nursing procedures and techniques in the care of patients with diseases of the visual apparatus.
- Topic 15. Nursing processes in patients with eye disorders.

Thematic block III. Nursing assistance to the patient with skin disorders.

- Topic 16. Remembrance of the anatomy and physiology of the skin and adnexa.
- Topic 17. Value of the patient with skin diseases and adnexa.
- Topic 18. Diagnostic methods in skin diseases and adnexa.
- Topic 19. Nursing procedures and techniques in the care of patients with skin diseases.
- Topic 20. Nursing process in patients with skin disorders and adnexa.

Thematic block; problem solving, exercises and cases:

- Nursing assistance to the patient with burns.
- Nursing assistance to the patient with tracheostomy.
- Assistance nursing in patients with obstruction of the upper airway:FBAO (Foreign Body Airway Obstruction)
- Nursing assistance in urticaria, angioedema and anaphylaxis.
- Examination and study of clinical cases, proposed by teachers and students, according to the teaching needs detected, of pathological situations not included in this relationship.

4.4. Course planning and calendar

Planning of teaching activities. In the temporary planning of the subject, the following three aspects have been taken into account; The first aspect is the existence of two groups in the course, the second aspect is the annual nature of the subject. and the third and last aspect is the ?modular distribution of teaching? (one group receives theoretical teaching, while the

other group receives clinical practice teaching alternatively).

The planning of the teaching activities is supported by the document of academic organization of the Degree in Nursing of the Faculty of Health Sciences, which reflects the calendar of the academic planning of the subject in the academic year 2021-22, as to dates of theoretical-practical classes, schedule and number of groups.

- Exam dates:

? Partial exams: The dates and hours of the partial exams will be determined once the subject has been taught, after informing and communicating with the students enrolled in the subject.

? Final exams: The dates of the final exams of June and September 2022, of the subject, are exposed in the official calendar of exams of the Nursing Degree that can be consulted on the website of the Faculty of Health Sciences of the University of Zaragoza.

4.5. Bibliography and recommended resources
