ahora que tengo todo el sol en los ojos, ahora que no puedo mirarlo sin quemarme, ahora que lo miro a través de lo que ilumina, ahora que ya no lo fotografío, puedo contar por qué lo hice mi presencia diaria durante más de un año. Sé que está detrás de mí, somos., todo comenzó con un espejo, una sala con ventanas y el sol, una exposición donde el sol se encontraba con el espejo en un jardín, el espejo lo lanzaba al interior de la sala cruzando las ventanas y ambos dibujaban un arco fluctuante móvil y parpadeante, cada nuevo día el sol entraba distinto y variaba la configuración de la luz y mudaba la sensación del ambiente y cambiaba la percepción de las piezas, los días continuaban siempre distintos, todos los días algo había cambiado, los siguientes días continuaban siempre distintos, aquel sol y estos soles, el sol que nos aviva, el sol que somos.

sol ojos y letras
escribo desde la presbicia
con esta nube
nublada vista
desenfocada
no hay línea única
bailan las letras
movidas
en movimiento
mi pen pencil sigue
el movimiento del bulto
de mi mano
la sombra sobre el papel
la sombra sobre las letras
letras palabras movidas
en movimiento
veo mal
ya no enfoco
a esta distancia de la escritura
me alejo el doble
con la cabeza atrás
con la cabeza delante

el sol
mucho sol en los ojos
me ha quemado la vista
ya no os veo

espacio de contacto para la educación emocional ecológica
