

27245 - Internships

Syllabus Information

Academic year: 2024/25

Subject: 27245 - Internships

Faculty / School: 100 - Facultad de Ciencias

Degree: 452 - Degree in Chemistry

ECTS: 5.0

Year: 4

Semester: Second semester

Subject type: Optional

Module:

1. General information

The external internships of the Chemistry degree have an extracurricular nature, that is, they are not part of the Study Plan, so they are optional. They may be validated for free choice credits (up to 5 ECTS, depending on the number of hours completed) and will appear in the corresponding SET.

2. Learning results

External academic practices complement the knowledge acquired by the students in their academic training, favoring the acquisition of skills that prepare them for the exercise of professional activities, facilitate their employability and promote their entrepreneurial capacity.

3. Syllabus

The Chemistry degree allows the development of professional activities in a very extensive field, from industry, quality control, chemical analysis, consulting, management, commerce, teaching, research, etc. both in the public and private spheres.

4. Academic activities

For each student, a working plan will be designed.

6. Sustainable Development Goals

3 - Good Health & Well-Being

9 - Industry, Innovation and Infrastructure

12 - Responsible Production and Consumption
