

## 27724 - Aragonese Civil Law

### Syllabus Information

---

**Academic year:** 2024/25

**Subject:** 27724 - Aragonese Civil Law

**Faculty / School:** 102 - Facultad de Derecho

**Degree:** 421 - Degree in Law

**ECTS:** 6.0

**Year:** 3

**Semester:** Second semester

**Subject type:** Compulsory

**Module:**

### 1. General information

This subject is aimed at the knowledge of Aragonese Civil Law (art. 149.1.8ª CE), contained in the Code of the Foral Law. It includes a reference to its history and an overview of its regulations (sources, person, family, inheritance and patrimonial) which, as far as possible, avoids reiterating matters already addressed in the thematic subjects (person and property, family and inheritance) and pays more attention to the Aragonese institutions with no equivalent in the civil law of the State.

### 2. Learning results

- **Identify**, understand and expose the legal institutions of Aragonese civil law, as well as give an account of its evolution to its current formulation, all in accordance with the syllabus of the subject.
- **Interpret** the rules of Aragonese civil law in the light of the doctrine and jurisprudence on them in order to draw the relevant legal consequences
- **Incorporate** in their written and oral argumentation the legal concepts and terms of Aragonese civil law
- **Apply** their knowledge of Aragonese civil law, as well as their ability to interpret its rules, to the resolution of questions and practical cases.
- **Search**, find and apply legal, jurisprudential and doctrinal texts, especially through the use of ICT, to solve practical cases of Aragonese civil law.

### 3. Syllabus

1. Past and present of Aragonese Civil Law
2. The sources of Aragonese civil law
3. Personal rights
4. General effects of marriage
5. Marriage chapters. Separation of assets

### 4. Academic activities

*Theoretical classes in charge of the teaching staff of exposition and systematization of the knowledge of the course syllabus.*

*Practical and dynamic classes of teachers and students based on the model of cases and questions with student presentation and discussion by the students.*

*Assessable tests of the activities carried out during the term.*

*Personal study of the students.*

*Final assessment tests.*

## **5. Assessment system**

I. Mixed system:

a. *Assessment of activities developed during the term:*

Students will have to carry out different case studies, assignments or tests, as well as participate in their exposition or debate in the classroom. The evaluation of these activities will be based on the degree of achievement of the learning results of this Teaching Guide. The overall result of these will be weighted by 30% in the final grade(i.e., between 0 and 3 points)

b. *-Final theoretical test.* It will consist of a questionnaire of several questions that will measure the degree of achievement of the learning results. Weigh 70% of the final grade (between 0 and 7 points)

II. Single examination system:

a. *-Performance of the same final theoretical test of the mixed system.* Weighted at 70% of the final grade

-(between 0 and 7 points)

b. *-Resolution of one or more practical cases* similar to those carried out during the term in the practical classes . Weigh 30% of the final grade (between 0 and 3 points)

The same assessment systems will be applied in june/july call.
