Assessment tests.

5. Assessment system

They will consist of:

I. **-Mixed system**, which is composed of the following evaluation activities:

- a. -Evaluation of activities developed during the course, which will be based on the grade of between 1 and 5 learning activities.
- The overall result of these will be weighted by 30 % in the final grade. Partial grades will be provided to the student.

The grade obtained in the assessment of the activities developed during the term is kept for the second call of the subject, provided it has been obtained within the same enrolment call of the subject.

- b. -Final written test, which will consist of the resolution of a practical case. The final written test constitutes 70% of the final grade.

Students who do not obtain in this final written test a minimum grade of 4 out of 10 points will not pass the subject. Only on the basis of this grade will it be weighted with the grade of the evaluation of the activities developed during the term.

II. **-Simple system**, based exclusively on a *global final test* consisting of two parts:

- a. the completion of the same final written test of the mixed system consisting of the resolution of a practical case and
- b. -the completion of an additional written exercise consisting of a questionnaire with several questions on the content of the subject

The final grade of the overall test will be obtained from the weighted average of the grades of the final test, 70%, and of the above mentioned exercise, 30% being necessary that the result of the weighted average is 5.0 points or higher

Notwithstanding the above, students will not pass the subject if they do not achieve a minimum grade of 4 out of 10 points in the total of the final test of the mixed system , as well as a minimum grade of 5 out of 10 in the additional written exercise of item b) of this section.
