

66706 - Development and sustainability in a multipurpose rural zone

Información del Plan Docente

Academic Year	2016/17
Academic center	103 - Facultad de Filosofía y Letras
Degree	328 - Master's in Land and Environmental Planning
ECTS	6.0
Course	1
Period	Annual
Subject Type	Optional
Module	---

1.Basic info

1.1.Recommendations to take this course

1.2.Activities and key dates for the course

2.Initiation

2.1.Learning outcomes that define the subject

2.2.Introduction

3.Context and competences

3.1.Goals

3.2.Context and meaning of the subject in the degree

3.3.Competences

3.4.Importance of learning outcomes

4.Evaluation

5.Activities and resources

5.1.General methodological presentation

The learning process that is designed for this subject is based on the following:

This subject has a complementary theoretical and applied conceptual basis with other optional socioeconomic and environmental approach that will apply to the fundamentals of the OT.

66706 - Development and sustainability in a multipurpose rural zone

The practical and applied character is specified both in practical work and case presentations and field work. The number of hours spent together these two types of training activities will be a third of the total.

The practice charge includes the use of methods commonly used in the strategic planning of rural development. These practices together with the theoretical commitment to conclude in an individual work of designing a strategic development plan.

The presentation of specific cases by external specialists to college students intended to come into contact with the problems and given by professionals working in rural areas in the implementation of existing political solutions.
