

66707 - Economic activities: analysis and land planning

Información del Plan Docente

Academic Year	2016/17
Academic center	103 - Facultad de Filosofía y Letras
Degree	328 - Master's in Land and Environmental Planning
ECTS	6.0
Course	1
Period	Annual
Subject Type	Optional
Module	---

1.Basic info

1.1.Recommendations to take this course

1.2.Activities and key dates for the course

2.Initiation

2.1.Learning outcomes that define the subject

2.2.Introduction

3.Context and competences

3.1.Goals

3.2.Context and meaning of the subject in the degree

3.3.Competences

3.4.Importance of learning outcomes

4.Evaluation

5.Activities and resources

5.1.General methodological presentation

The learning process designed for this course is based on the following principles:

- a) To maintain an integrated perspective that favors the relationship with others subjects and courses of the Master Degree
- b) To adopt a professional approach in the analysis and resolution of the problems generated by the spatial planning of the economic activities

66707 - Economic activities: analysis and land planning

A wide range of teaching and learning activities is implemented, such as interactive lessons, practical exercises, individual or group activities, directed activities, field work and private study.

A high level of student participation will be required from all students throughout the course.

Extensive material will be available *via* the Moodle site of the course. This offers a variety of resources including a repository of the lecture notes used in class, a course syllabus as well as other forms of course-specific materials, including a discussion forum.

5.2.Learning activities

Interactive lecture sessions for the presentation of the main conceptual and theoretical issues: 30 hours

Practical activities, individual or in small groups, including case studies and problems based learning: 20 hours

Private study: 90 hours

Optional individual and group tutorials

5.3.Program

The lecture course will address the following main issues:

1. The territorial analysis and planning of economic activities: Issues and Challenges
2. The organization of the economic activities in the territory at different scales
3. Elements for the territorial analysis and planning of the agricultural activities
4. Elements for the territorial analysis and planning of the industrial activities
5. Elements for territorial analysis and planning of the services
6. Methods for the spatial analysis and planning of the agricultural activities
7. Methods for the spatial analysis and planning of the industrial activities

66707 - Economic activities: analysis and land planning

8. Methods for the spatial analysis and planning of the services

5.4.Planning and scheduling

The course is divided into 4 parts or thematic blocks. The course units are delivered via weekly two two-hour and a half interactive lecture sessions, supported by other two two-hour and a half practical sessions. Each thematic block develops for about three weeks, after which the assessment exercises are carried out.

For further details concerning the timetable, classroom and other information of the course please refer to the

"*Facultad de Filosofía y Letras*" web site (<https://fyl.unizar.es/horario-de-clases#overlay-context=horario-de-clases>) and the Moodle site of the course.
