29329 - Oral Surgery II: Introduction to Implantology and Maxillofacial Surgery

Información del Plan Docente

Academic Year	2016/17
Academic center	229 - Facultad de Ciencias de la Salud y del Deporte
Degree	442 - Degree in Odontology
ECTS	6.0
Course	3
Period	Second semester
Subject Type	Compulsory
Module	---

1.Basic info

1.1.Recommendations to take this course

1.2.Activities and key dates for the course

2.Initiation

2.1.Learning outcomes that define the subject

2.2.Introduction

3.Context and competences

3.1.Goals

3.2.Context and meaning of the subject in the degree

3.3.Competences

3.4.Importance of learning outcomes

4.Evaluation

5.Activities and resources

5.1.General methodological presentation

The goals of this subject are:

- To know the oral surgical pathology
- To give a proper diagnosis
- To know desing a specific treatment plan
- To selec the appropiate patients to dental implants-based treatment
- To do the early diagnosis of treatment complications

5.2.Learning activities

The learning activities include:

- Master class
- Seminars
- Practices in preclinical laboratory
- Group cooperative works
- Discussion forum on line

5.3.Program

The program include a compilation of 12 relevant topics concerning the oral surgery and 12 concerning the oral implantology

5.4.Planning and scheduling

The planning and the scheduling of this subject are in https://fccsyd.unizar.es/odontologia/grado-odontologia
