

29338 - Clinical Orthodontics

Información del Plan Docente

Academic Year	2016/17
Academic center	229 - Facultad de Ciencias de la Salud y del Deporte
Degree	442 - Degree in Odontology
ECTS	6.0
Course	5
Period	First semester
Subject Type	Compulsory
Module	---

1.Basic info

1.1.Recommendations to take this course

1.2.Activities and key dates for the course

2.Initiation

2.1.Learning outcomes that define the subject

2.2.Introduction

3.Context and competences

3.1.Goals

3.2.Context and meaning of the subject in the degree

3.3.Competences

3.4.Importance of learning outcomes

4.Evaluation

5.Activities and resources

5.1.General methodological presentation

The learning process that is designed for this subject is based on the following:

Learning activities scheduled

1. Attended class (24h)

participative magisterial presentation of content through presentation and explanation of teacher with student dialogue. questions will be raised to establish Based Learning Problems, doubts will be resolved, etc.

Thematic exhibitions will be supported by diagrams and illustrations by PowerPoint presentations. This material will be provided to students through photocopies. In certain thematic blocks additional material will be provided and will encourage the realization of concept maps in order to achieve deeper learning.

Devoted to answer questions or provide specific bibliography of a specific topic in relation to the theoretical and practical contents of the subject. the proposed monitoring group work and individual correction work will be performed. The tutorial will take place both in classroom and non-classroom (via telematics via e-mail)

5.2.Learning activities

The program that the student is offered to help you achieve the expected results includes the following activities ...

THEORETICAL CONTENTS

PRACTICAL CONTENTS

5.3.Program

THEORETICAL CONTENTS

Thematic block I: Review in Orthodontics diagnostic.

* Diagnostic Procedures

* Integration diagnostic and treatment plan

Thematic Block II: orthodontic appliances

* Removable Plates

* Functional Devices

* extraoral devices

* dental braces cross action.

* Multibrackets.

* auxiliary devices on fixed bands.

Thematic Block III: Treatment of malocclusions

* Transverse syndromes

* Vertical syndromes

* Sagittal syndromes

Block IV theme: Other aspects of the therapeutic orthodontic

* Extractions in orthodontics

* interdisciplinary treatments

* Treatment of adult patients

* Emergencies in orthodontics

* Plastic and lingual orthodontics

* Retention in orthodontics

PRACTICAL CONTENTS

Module I: Diagnosis

* Steiner and Ricketts Cephalometry

* Orthopantomography in orthodontics

* Photographic records in orthodontics

* Models diagnostics

Module II: Development of appliances

* Development of lingual arch and palatal bar

29338 - Clinical Orthodontics

- * Development of removable plate
- * Basic practice on fixed orthodontic multibrackets.

5.4.Planning and scheduling

Schedule sessions and presentation of works

The schedule of practical sessions and dates for the defense of the work will be communicated at the beginning of the course.

Resources

Places where the subject will be taught

Theoretical classes : to be confirmed

Practical classes:

- Sessions in classroom: to be confirmed
- Laboratory sessions : Aula pre -clinical and laboratory classroom
