

68709 - Pharmacovigilance and rational use of medication

Información del Plan Docente

Academic Year	2016/17
Academic center	104 - Facultad de Medicina
Degree	459 - Master's in Public Health
ECTS	2.0
Course	1
Period	Second semester
Subject Type	Optional
Module	---

1.Basic info

1.1.Recommendations to take this course

1.2.Activities and key dates for the course

2.Initiation

2.1.Learning outcomes that define the subject

2.2.Introduction

3.Context and competences

3.1.Goals

3.2.Context and meaning of the subject in the degree

3.3.Competences

3.4.Importance of learning outcomes

4.Evaluation

5.Activities and resources

5.1.General methodological presentation

The process of learning designed for this subject is based on:

Taking into account the different background of students, it is considered that the learning and achievement of the results expected should be a consequence of the attending and participation in face-to-face classes and in the elaboration of the works programmed.

5.2.Learning activities

68709 - Pharmacovigilance and rational use of medication

The program offered to the student in order to help him/her to get the expected results, includes the following activities:

1. Lectures with practical cases and examples
2. Virtual learning with materials available at ADD
3. Practical workshop
4. Individual and group work
5. Round table

5.3.Program

- Concept and strategies in Rational Use of Medicaments
- Bioequivalence, biosimilars and therapeutic equivalence
- Safety in drug utilization
- Prescribing quality indicators
- Criteria and strategies in therapeutic positioning
- Pharmacovigilance

5.4.Planning and scheduling

The calendar available at ADD shows the relevant dates in the subject organization and indicates the works deadline.

5.5.Bibliography and recommended resources

The bibliography yearly recommended is usually updated and can be consulted in biblioteca.unizar.es.
