

27647 - Quantitative Models for Marketing

Información del Plan Docente

Academic Year	2017/18
Faculty / School	109 - Facultad de Economía y Empresa
Degree	450 - Degree in Marketing and Market Research
ECTS	5.0
Year	4
Semester	First semester
Subject Type	Optional
Module	---

1.General information

1.1.Introduction

1.2.Recommendations to take this course

1.3.Context and importance of this course in the degree

1.4.Activities and key dates

2.Learning goals

2.1.Learning goals

2.2.Importance of learning goals

3.Aims of the course and competences

3.1.Aims of the course

3.2.Competences

4.Assessment (1st and 2nd call)

4.1.Assessment tasks (description of tasks, marking system and assessment criteria)

5.Methodology, learning tasks, syllabus and resources

5.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. It favors the understanding of the different Models with Qualitative Dependent Variables. A wide range of teaching and learning tasks are implemented, such as theory sessions, Computer practices , and tutorials.

Students are expected to participate actively in the class throughout the semester.

Classroom materials will be available via Moodle. These include a repository of the lecture notes used in class, the course

27647 - Quantitative Models for Marketing

syllabus, as well as other course-specific learning materials.

Further information regarding the course will be provided on the first day of class.

5.2.Learning tasks

The course includes 5 ECTS organized according to:

- Theory sessions (2 ECTS): 75 hours.
- Practice sessions (1 ECTS): XX hours.
- Autonomous work (1 ECTS): XX hours.
- Tutorials (1 ECTS): XX hours.

Theory sessions: lecture notes and a series of problems (and its solutions) will be available for the students. At the end of each topic, some of the problems will be solved in class by the professor and the rest will be done individually..

Computer practices sessions: these 2-hour sessions take place every week. Students are provided with the practical exercises' instructions to be done as well as a theoretical introduction to the session's contents.

5.3.Syllabus

The course will address the following topics:

Theory sessions

Section 1: Introduction of Models with Qualitative Dependent Variables

Section 2: Binary Choice Models

Section 3: The Multiple-Choice Models

Section 4. Models for ordered data .
