Recommendations to take this course

Learning goals

Competences

Learning goals

Importance of learning goals

Assessment (1st and 2nd call)

Assessment tasks (description of tasks, marking system and assessment criteria)

Methodology, learning tasks, syllabus and resources

Methodological overview

In the subject Psychopathology and Therapeutic Interventions II, we will employ a participative methodology, using the Problem-Based Learning methodology as referent. We will stimulate critical thinking, by analyzing and discussing about the usefulness of the different theoretical approaches to therapy. This way, our purpose is to help student to choose the theoretical approach that fits better their goals in their future work as psychologists.

Learning tasks

Lecture sessions: 30 hours (3 ECTS)

Practice sessions (case studies, general design of therapeutic interventions): 30 hours (3 ECTS)
