Degree	417 - Degree in Economics
ECTS	6.0
Year	2
Semester	Second semester
Subject Type	Compulsory
Module	---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this course is oriented towards achievement of its learning objectives. It is based on theoretical and practice classes by the teacher, active participation of students in face to face classes, reading, study and discussion of teacher's recommended texts by students and students resolution of several evaluation test throughout the semester. It is expected that this methodological strategy favors a suitable comprehension of the fundamentals of the course, as well as the development of communicative skills and critical thinking of students.

Classroom materials will be available via Moodle. These include a repository of the course syllabus, slides used in classrooms, schedule of lessons, as well as other learning resources designed by teachers. Further information regarding the development of the course and evaluation criteria will be provided on the first day of class.

27418 - Public economics I
