

Year : 2018/19

30360 - Information Systems

Syllabus Information

Academic Year:	2018/19
Subject:	30360 - Information Systems
Faculty / School:	110 -
Degree:	438 - Bachelor's Degree in Telecommunications Technology and Services Engineering
ECTS:	6.0
Year:	4
Semester:	First semester
Subject Type:	Optional
Module:	---

General information

Aims of the course

For more information, please see course 30224 (Information Systems)

Context and importance of this course in the degree

For more information, please see course 30224 (Information Systems)

Recommendations to take this course

For more information, please see course 30224 (Information Systems)

Learning goals

Competences

For more information, please see course 30224 (Information Systems)

Learning goals

For more information, please see course 30224 (Information Systems)

Importance of learning goals

For more information, please see course 30224 (Information Systems)

Assessment (1st and 2nd call)

Assessment tasks (description of tasks, marking system and assessment criteria)

For more information, please see course 30224 (Information Systems)

Methodology, learning tasks, syllabus and resources

Methodological overview

For more information, please see course 30224 (Information Systems)

Learning tasks

For more information, please see course 30224 (Information Systems)

Syllabus

For more information, please see course 30224 (Information Systems)

Course planning and calendar

For more information, please see course 30224 (Information Systems)

Bibliography and recommended resources

For more information, please see course 30224 (Information Systems)
