1.General information**1.1.Aims of the course**

The subject and its expected results respond to the following approaches and objectives:
The specific objective is to provide students with direct experience of the professional context of secondary education.

The main objective of this course is that students acquire the skills to operate in a middle school (ESO, Bachillerato or Professional Conservatory) from the interaction and coexistence in the classroom and the teaching-learning processes, as well as knowing how to plan a curricular and instructional design for the development of learning activities.

This is a subject fundamentally based on the observation and the elaboration of the programming of activities of a subject or module of the student's speciality, with reference to the context and the academic/professional profile of the competences. For this reason, very close coordination mechanisms will be established between both parties: theoretical and practical.
