1.General information**1.1.Aims of the course**

The objective of the Practicum is that the student is competent to integrate into the teaching profession from the very beginning.

The student will develop projects of innovation or educational research whose foundations are worked on in the corresponding specific subject. The aim is for the university student to reflect critically and scientifically on the learning process of the students of the practice teaching centres and how to promote it through evaluation, innovation and research.

The main objective of this course is that students acquire the skills to develop in a middle school (Secondary Education or Conservatory) from the interaction and coexistence in the classroom and the teaching-learning processes, as well as knowing how to not only plan a curricular and instructional design for the development of learning activities, but also to propose proposals for improvement through research and/or teaching innovation in the subjects corresponding to the specialty.
