

68717 - Cartographic tools for epidemiological and public health studies

Información del Plan Docente

Academic Year	2018/19
Subject	68717 - Cartographic tools for epidemiological and public health studies
Faculty / School	104 - Facultad de Medicina
Degree	459 - Master's in Public Health
ECTS	2.0
Year	1
Semester	Second semester
Subject Type	Optional
Module	---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as participative sessions, practical exercises with GIS software, group activities, and autonomous work.

A high level of student participation will be required from all students throughout the course.

A portfolio is required from any student, which consist of a collection of the learner's work done over the course and which shows the development of their acquired knowledge.

68717 - Cartographic tools for epidemiological and public health studies

Classroom materials will be available via Moodle. These include a repository of the lecture notes used in class, the course syllabus, as well as other course-specific learning materials.

4.2.Learning tasks

The course includes the following learning tasks:

- Theory sessions: 10 hours
- Practice sessions: 8 hours
- Guided tasks: 3.24 hours

4.3.Syllabus

The course will address the following topics:

- Topic 1.- The Geographic and Cartographic Framework
- Topic 2.- The cartographic process
- Topic 3.- Planning and Composition
- Topic 4.- Base map and thematic data
- Topic 5.- Symbolization
- Topic 6.- Decision-making process
- Topic 7.- Layout Design
- Topic 8.- Critique of maps
- Topic 9.- The use of maps in Epidemiology and Public Health

4.4.Course planning and calendar

The course is divided into 9 topics and lasts one week during the second semester. Each session takes five hours.

Further information concerning the timetable, classroom, assessment dates and other details regarding this course, will be provided on the first day of class or please refer to the Master's website (<http://medicina.unizar.es/mastersp>)

4.5.Bibliography and recommended resources

Information concerning bibliography please refer to <http://psfunizar7.unizar.es/br13/eBuscar.php?tipo=a>
