

26019 - Psychiatry

Syllabus Information

Academic Year: 2019/20

Subject: 26019 - Psychiatry

Faculty / School: 127 - Facultad de Ciencias de la Salud

Degree: 276 - Degree in Occupational Therapy

ECTS: 6.0

Year: 3

Semester: Annual

Subject Type: Compulsory

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as lectures, seminars, workshops, practice sessions, tutorials, and autonomous work and study.

4.2.Learning tasks

This course is organized as follows:

- **Lectures** (23 sessions). 2 sessions per week. Theory contents are exposed by the teacher.
- **Practice** (31 sessions). Theory contents are complemented with seminars, workshops, and practice sessions. Students will be divided into small groups (4-5 students) for these sessions and will elaborate an assignment.
 - **Seminars.** 1-2 per week during 15 weeks. They are related to the basic topics of the syllabus. Different clinical cases will be presented with the active participation of students. Furthermore, some seminars will include a bigger proportion of contents about models and scientific approaches.
 - **Workshops.** 1 each 2-3 weeks during 15 weeks. They are eminently practical, with the active participation of students. There will be a special dedication to research projects in Psychiatry.
 - **Practice sessions.** 1 each 2 weeks during 15 weeks. To know how to use main psychometric instruments, to learn relaxation techniques and to practice critical review of scientific papers related to

occupational therapy in psychiatry.

- **Group work.** In groups of 4-5 students, an assignment will be elaborated.
- **Tutorials:** They are both on-site and individual, with the previous appointment with the teacher, and online, using the scheduled timetable.
- **Autonomous work and study.** Dedicated to study the theoretical lessons and to prepare seminars, workshops, and practice sessions before and after them.

4.3.Syllabus
