

26512 - Preventing Learning Difficulties

Syllabus Information

Academic Year: 2019/20

Subject: 26512 - Preventing Learning Difficulties

Faculty / School: 107 - Facultad de Educación

202 - Facultad de Ciencias Humanas y de la Educación

301 - Facultad de Ciencias Sociales y Humanas

Degree: 301 - Degree in Nursery School Education

302 - Degree in Nursery School Education

303 - Degree in Nursery School Education

ECTS: 6.0

Year: 2

Semester: First semester

Subject Type: Compulsory

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

The student:

1. Knows the psychological processes involved in learning, knows what the basic techniques involve and is capable of designing actions to prevent some of the difficulties that could arise.
2. Is aware of the importance of the different components of motor development and of oral language in learning.
3. Builds a model of what reading and writing involves, which serves to evaluate methodological strategies of beginning to write.
4. Relates the characteristics of cognitive development to the characteristics of logical and mathematical thought.
5. Understands how the success or the failure in learning can affect the variables of motivation, expectations and attributions.
6. Is aware of the importance of contexts: social, family, school and classroom.

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. It is based on active participation, case studies, teamwork etc. that favors the development of communicative skills and critical thinking. A wide range of teaching and learning tasks are implemented, such as lectures, practical activities, practice sessions, autonomous work, tutorials, and academic guidance.

Further information regarding the course will be provided on the first day of class.

4.2.Learning tasks

The course includes 6 ECTS organized according to:

- Lectures (3 ECTS): 30 hours.
- Practice sessions (2 ECTS): 20 hours.
- Autonomous work (ECTS): 87 hours.
- Tutorials (1 ECTS): 10 hours.
- Assessment (0,3 ECTS): 3 hours.

Lectures: the professor presents theoretical contents.

Practice sessions: they can involve discussion and presentation of case studies, practical work outside the classroom (field work educational practices visiting educational centres or activities carried out by them).

Autonomous work: students do tasks such as autonomous study, reading of the course book, preparation of practice sessions

Tutorials: professors' office hours can be used to solve doubts and to follow-up students' work.

Assessment: final examination

4.3.Syllabus

The course will address the following topics:

1. The process of teaching-learning in Infant Education:

1.1. Optimization of the development of the basic psychological processes involved in learning. Contexts of development and attention to diversity.

1.2. Prevention of difficulties and optimization of the development of predicted skills of success in learning.

2. Prevention of learning difficulties associated with motor development and the development of oral language.

3. Prevention of learning difficulties in reading and writing.

4. Prevention of learning difficulties in mathematical and logical thinking skills.

5. Relation between the variables of social-personal development and the success or failure of learning in Infant Education.

4.4.Course planning and calendar
