

## 27015 - Numerical Analysis II

### Syllabus Information

---

**Academic Year:** 2019/20

**Subject:** 27015 - Numerical Analysis II

**Faculty / School:** 100 -

**Degree:** 453 - Degree in Mathematics

**ECTS:** 9.0

**Year:** 3

**Semester:** Annual

**Subject Type:** Compulsory

**Module:** ---

### 1.General information

#### 1.1.Aims of the course

#### 1.2.Context and importance of this course in the degree

#### 1.3.Recommendations to take this course

### 2.Learning goals

#### 2.1.Competences

#### 2.2.Learning goals

#### 2.3.Importance of learning goals

### 3.Assessment (1st and 2nd call)

#### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

### 4.Methodology, learning tasks, syllabus and resources

#### 4.1.Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as lectures, problem-solving sessions, tutorials and autonomous work and study.

#### 4.2.Learning tasks

This course is organized as follows:

- **Lectures.**
- **Problem-solving sessions.** These sessions will be held in small groups. Acquired concepts are trained with here. The different computational methods and algorithms are performed in a scientific programming language, checking the different algorithms and methods with test problems.
- **Computer lab sessions** in small groups
- **Tutorials.**
- **Autonomous work and study.** Autonomous study, complemented with tutorials are fundamental in the learning process.

#### **4.3.Syllabus**

This course will address the following topics:

- **Topic 1.** Polynomial interpolation
- **Topic 2.** Spline interpolation
- **Topic 3.** Numerical differentiation
- **Topic 4.** Numerical quadrature

#### **4.4.Course planning and calendar**

Further information concerning the timetable, classroom, office hours, assessment dates and other details regarding this course will be provided on the first day of class or please refer to the Faculty of Sciences website and Moodle.

#### **4.5.Bibliography and recommended resources**
