

29215 - Diet Therapy

Syllabus Information

Academic Year: 2019/20

Subject: 29215 - Diet Therapy

Faculty / School: 229 - Facultad de Ciencias de la Salud y del Deporte

Degree: 441 - Degree in Human Nutrition and Dietetics

ECTS: 9.0

Year: 3

Semester: Annual

Subject Type: Compulsory

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as lectures, practice sessions, assessment tasks and autonomous work and study.

4.2.Learning tasks

This course is organized as follows:

- **Lectures** (40 hours).
- **Practice sessions** (50 hours).
- **Autonomous work and study** (135 hours).
- **Assessment tasks** (5 hours). Different tests will be developed to verify and check the acquisition of both theoretical and practical knowledge and skills acquisition.

4.3.Syllabus
