

## 29335 - Prosthesis IV

### Syllabus Information

**Academic Year:** 2019/20

**Subject:** 29335 - Prosthesis IV

**Faculty / School:** 229 - Facultad de Ciencias de la Salud y del Deporte

**Degree:** 442 - Degree in Odontology

**ECTS:** 6.0

**Year:** 4

**Semester:** Second semester

**Subject Type:** Compulsory

**Module:** ---

### 1.General information

#### 1.1.Aims of the course

#### 1.2.Context and importance of this course in the degree

#### 1.3.Recommendations to take this course

### 2.Learning goals

#### 2.1.Competences

#### 2.2.Learning goals

#### 2.3.Importance of learning goals

### 3.Assessment (1st and 2nd call)

#### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

### 4.Methodology, learning tasks, syllabus and resources

#### 4.1.Methodological overview

The learning process that has been design for this subject, Its based on the following criteria:

- 1- Lectures: Theory lectures with studente participation. In some topic areas additional material will be given for a deeper learning.
- 2- Clinical practice: The clinical practice will be done in the University Dental clinic. Every student must present a portfolio with all the clinical procedures. Attendance is mandatory.
- 3- Group homework: Several topics will be given by the professor; the student will do an assay work based on bibliography and evidence based dentistry. All the student?s homework will have a public presentation.
- 4- Tutorials: Every student may have personal doubt resolution, to complete the learning process.

#### 4.2.Learning tasks

#### 4.3.Syllabus
