

66218 - Master's Dissertation

Syllabus Information

Academic Year: 2019/20

Subject: 66218 - Master's Dissertation

Faculty / School: 110 -

Degree: 531 - Master's in Chemical Engineering

ECTS: 15.0

Year: 2

Semester: Indeterminado

Subject Type: ---

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The Master's Dissertation (TFM) is the culmination of the Master's Degree. The learning process is based on the practical application of the competences acquired by the student along the Master's Degree.

It does not include lectures or seminars but tutoring sessions during the elaboration of the TFM. The supervisor should belong to any of the various areas of knowledge included in the Master's Degree.

4.2.Learning tasks

The course includes the following learning tasks:

- A05 Autonomous work (14.6 ECTS: 365 hours). Elaboration of the the practical work or research.
- A06 Supervision and tutorials (0.32 ECTS: 8 hours). Personalized supervision to help the completion of the TFM.
- A08 Assessment (0.08 ECTS: 2 hours). Defense session of the TFM.

4.3.Syllabus

There is no syllabus for this course.

4.4.Course planning and calendar

The student will agree with his/her supervisor the tutoring sessions during the TFM process.

The submission and defense of the TFM will be done into the timeslots set by the School of Engineering and Architecture (EINA).
